

CHUGHTAI LAB
ONE NATION - ONE LAB

Patient Detail :

HAFIZ MUEEZ . 23 (Y) Male

Mobile:

., 03205919777

Registration Location:

Lahore: Johar town chughtais Lahore lab

NIC # :

3520289535521

Registration Date:

04-Sep-2021 20:35

Reference:

Standard.

Consultant:

.

Patient Number: **89301-21-911892969**

Case Number: **99563-04-09**

Department of Molecular Virology

Reporting Time: 06-Sep-2021 21:53

COVID-19 (Corona) Virus

Qualitative Polymerase Chain Reaction (PCR)

Specimen	Swab
Result	Not Detected

One or more negative results do not rule out the possibility of COVID-19 virus infection. A number of factors could lead to a negative result in an infected individual, including:

- poor quality of the specimen, containing little patient material
- the specimen was collected late or very early in the infection
- technical reasons inherent in the test, e.g. virus mutation or PCR inhibition.

If a negative result is obtained from a patient with a high index of suspicion for COVID-19 virus infection, particularly when only upper respiratory tract specimens were collected, additional specimens, including from the lower respiratory tract if possible, should be collected and tested.

If your test result is Detected, you are advised to stay in isolation to prevent the spread of the virus. Home isolation guidelines can be found at www.chughtailab.com/coronavirus.

For travel purposes, we recommend that you wait 14 days before getting a repeat test.

Test performed using TaqPath 2019 nCoV RealTime PCR Assay Kit v2 by Thermo Fisher Scientific.

Laboratory testing for coronavirus disease 2019 (COVID-19) in suspected human cases.WHO Interim guidance 2nd March 2020

Chughtai Lab has enabled encrypted QR code for report verification.

To verify this report, please scan the encrypted QR code using Chughtai Lab PCR Report Scanner App.
